## 1. (A) COAT OF ARMS OF THE UNIVERSITY OF NAMIBIA

The **Coat of Arms** of the University of Namibia (UNAM) is a heraldic device, whose design is grounded on an academic tradition that has been in practice for many centuries. It comprises three elements: a shield, a base, and a motto contained in a scroll.

The **shield** is the central and most prominent feature of the Coat of Arms. It contains a symbol of the sun, based in the Namibian flag; and an open book. It, indeed, represents the link between the University and the Namibian nation. The sun and the book are joined together to form an integrated element, which is suspended in a field of crimson.

The **book** represents the University as an Institution of higher learning, and symbolises the academic freedom of enquiry. The **sun** represents life and energy. The integrated symbol of the sun and the book carries a double meaning. Firstly, it represents the envisaged harmony between the University and the Namibian nation, as expressed in the University of Namibia Act, No. 18 of 1992, which expects UNAM to develop the highest quality education that caters for the needs, interests, and aspirations of the people of Namibia. Secondly, it represents the light and enlightenment radiating from the Institution.

The **crimson colour** represents the vitality and courage of the people of Namibia, whose collective vision, determination and sacrifice brought about an enabling environment that now permits Namibian citizens to acquire appropriate knowledge, ideas, and skills through University education, and to develop their full potential. It represents the organic link between the University and the Nation, whose colours also include crimson. It also reminds us of the world wide historical symbol that **"the life is in the blood, and blood is life"**

The chlorophyll-green *Welwitschia mirabilis* plant at the base, one of the oldest plants in the world, which is only found in the Namib desert, symbolises endurance and continuity. In addition, its position as the base for the symbolic elements of learning and enlightenment, signifies that the strength of the University is grounded in the ideals, the culture and the traditions of the people of Namibia, and has inherent qualities of creativity, endurance, and fortitude in difficulties. *Welwitschia*, indeed, survives in a hostile environment by harvesting the desert fog.

The **motto** of the University: **Education, Service and Development**, declares the mission of the Institution, and serves as a source of inspiration to both learners and teachers, and also UNAM's entire community.

## 9. REGULATIONS AND GUIDELINES FOR POSTGRADUATE PROGRAMMES

### 9.1 PRE-AMBLE

The guidelines and regulations presented in this document are intended to familiarize Departments, Centres, Faculties and candidates with the University of Namibia's (UNAM's) sound and well co-ordinated Postgraduate programmes.

### 9.2 POSTGRADUATE TRAINING PROGRAMMES AT UNAM

#### 9.2.1 POSTGRADUATE DIPLOMA COURSES

- (1) UNAM makes provision for Postgraduate Diploma courses in selected fields, as recommended by UNAM's Faculties, Centres and Institutes, the Postgraduate Studies Unit, and approved by Senate.
- (2) Postgraduate Diploma courses offer specialized training, which is career-oriented. Candidates with a general undergraduate degree, who want to pursue a teaching career, would, for example, be advised to enroll for a Postgraduate Diploma course in Education.
- (3) The Postgraduate Diploma courses normally have a minimum of **one year** duration for **full-time** candidates, and **two years** for **part-time** students; are **taught** courses (i.e., involve lectures, seminars, practicals, written tests and examinations, etc.); and also include a small independent research component.

#### 9.2.2 MASTER'S DEGREE COURSES

- (1) Postgraduate training programmes at Master's degree level are of two types:
  - (a) Programmes whereby the Master's degree is pursued by research alone, entailing the writing of a thesis, in accordance with guidelines provided by the Postgraduate Studies Committee.
  - (b) Programmes developed by various Faculties / Centres / Institutes, involving one academic year of coursework study, followed by written examinations, and then up to one academic year of research and writing a thesis, as a partial fulfillment of the requirements for the Master's degree.

- (2) Candidates admitted to both taught and research Master's degree courses have the option of doing their Master's studies on a **full time** or **part time** basis. Full time candidates shall complete their Master's degree programmes within **two** academic years. Part-time students will be allowed up to **three** years to complete their programmes. An extension of the registration period of up to six months beyond the stipulated deadlines **may** be granted by relevant committees, if valid reasons are advanced.
- (3) Senate approval is required for any Faculty to run Master's programmes with the duration of one academic year.
- (4) Heads of the various academic Departments at UNAM are requested when applying for the approval of new programmes to indicate whether they have adequate staff strength to mount Master's degree programmes by course work and/or dissertation, and also to submit names of staff members who have the necessary research and training experience to serve as supervisors for Master's degree candidates in their respective fields. Departments should only offer programmes when they have adequate numbers of qualified staff.
- (5) Where experts in relevant academic fields are to be found in various Ministries and other institutions outside UNAM, such experts will be co-opted as co-supervisors of the postgraduate students. Such potential external supervisors will be encouraged to propose thesis research areas which, in their opinion, are areas of high research priority, with respect to the socio-economic needs of Namibia.

### 9.2.3 DOCTORAL COURSES

- (1) Doctoral study opportunities at UNAM are offered to candidates who have the necessary qualifications for admission, where the relevant Department has the necessary research facilities and infrastructure, and where sufficiently qualified and experienced academics are available and ready to provide effective supervision.
- (2) Doctoral courses at UNAM are normally undertaken by research and the writing of a dissertation. The duration of a doctoral programme is a maximum of three years for full-time students, and five years for part-time students. An extension of the registration period of up to six months beyond the stipulated deadlines **may** be granted by relevant committees, if valid reasons are advanced.
- (3) Heads of academic Departments at UNAM are requested to propose names of experienced academic members of staff in their fields who can effectively supervise postgraduate students, and also academically qualified persons, who could be appointed as co-supervisors of prospective doctoral students applying for admission in their Departments.

### 9.2.4 HIGHER DOCTORATES

- (1) UNAM also makes provision for the award of Higher Doctorate Degrees. These are awarded to scholars who have made original contributions of international standard in their respective fields of specialization.
- (2) UNAM scholars who consider themselves qualified for Higher Doctorate awards must submit their applications for their candidacy to the Dean of their respective Faculty through Heads of the relevant Departments.
- (3) The respective Faculty concerned screens the application and recommends to the Postgraduate Studies Committee whether or not, in the opinion of the Faculty, the applicant qualifies as a candidate for UNAM's Higher Doctorate.
- (4) The following Higher Doctorate degrees will be awarded:
  - (a) Doctor of Education (D.Ed.): for successful candidates in the field of Education;
  - (b) Doctor of Literature (D.Lit.): for successful candidates in the Humanities, Economic and Social Sciences, and in the Visual and Performing Arts;
  - (c) Doctor of Laws (LL.D.): for successful candidates in the field of Law;
  - (d) Doctor of Science (D.Sc.): for successful candidates in the Agricultural, Engineering, Medical and the Natural Sciences.

### 9.2.5 APPROVAL OF POSTGRADUATE PROGRAMMES

Before all postgraduate programmes are recommended by the Academic Planning Committee (APC), to Senate for approval, they should be considered by the Postgraduate Studies Committee to ensure that they adhere to UNAM regulations and standards of quality.

## 9.3 ELIGIBILITY FOR ADMISSION

### 9.3.1 POSTGRADUATE DIPLOMA

#### 9.4 REGULATIONS AND GUIDELINES GOVERNING POSTGRADUATE TRAINING AT UNAM

##### 9.4.1 PROCEDURES TO APPLY FOR POSTGRADUATE STUDIES

UNAM welcomes students with a range of qualifications from all over the world. You are advised to fulfill the minimum admission requirements for entry as well as English Language requirement (if relevant) as indicated. Please note that competition for places in some programmes is extremely high, and that the minimum requirement given may not be sufficient to secure an offer. Due to this, students may be requested to sit for a selection test.

Before completing our application form, please familiarize yourself with all aspects pertaining to postgraduate studies as set out in this prospectus. You are strongly advised to ensure that you send all relevant documentation with your application form, together with a non-refundable application fee. Receipt of your application will be acknowledged by mail. Incomplete applications will not be considered.

##### **Postgraduate degrees by coursework:**

Unless otherwise stated, applications for taught courses should be made on a University application form which is available on request from the University of Namibia, and can also be downloaded from the UNAM Webpage: <http://www.unam.na>

Closing date for all applications is 30 September of each year.

##### **Postgraduate degrees by Thesis/ Dissertation only:**

The completed and processed application forms will be forwarded by the Student Records Section to the Head of Department of the relevant Faculty. The Faculty or Department will have a Screening Committee which will scrutinize your application to ensure that you fulfill the minimum admission requirements. The Screening Committee may require the candidate to be interviewed. The recommendations of the Screening Committee will be submitted to the Dean of Faculty and the relevant Faculty Officer. The Department will allocate you a Supervisor, according to your field of study who will confirm the recommendation in writing. Students need to submit this confirmation letter to the Office of the Registrar in order to be registered for the Research Proposal. Please update yourself on the different modes of the programmes offered (e.g. by coursework and thesis or by thesis only). If the postgraduate programme is only offered by thesis, the Supervisor will inform you on the following:

- (1) The way forward with regard to writing the Research Proposal - there should be an agreement between the student and the Supervisor on how the Research Proposal should be written. Students should decide on their own topic and follow the instructions on how to write research proposals as given in Annex 1.
- (2) The procedures on submitting your Research Proposal.
- (3) Different committee systems to evaluate, recommend and approve the Research Proposal.
- (4) The importance to keep to registration deadlines for draft and final submissions.
- (5) Inform the student when to register for the Masters Thesis or Doctorate Dissertation after final approval by the Postgraduate Studies Committee and Senate.

##### 9.4.2 STUDY PERMIT REQUIREMENTS

According to the Immigration Control Act of 19 August 1993, all International students (SADC and Non-SADC) should be in possession of a valid approved Study Permit and Visa before entering Namibia for the purpose of studying. All prospective, first and senior students are required to apply for a Study Permit and Visa on the prescribed forms obtainable from the University of Namibia or at the Namibian Embassy in your country or the nearest Namibian Embassy.

Only persons with permanent Namibian Residence, Refugees or Asylum Seekers and Diplomatic representatives are exempted from applying for a Study Permit and Visa. The mentioned categories are exempted on condition that they provide the relevant documentation (i.e. Permanent Residence Permit, approved and endorsed Refugee/ Political Asylum Seekers status, a Courtesy Visa which confirms diplomatic status) to the University of Namibia.

Study Permits, Work Permits and Tourist Visas are not interchangeable. Kindly note that should you be in possession of a work permit, you will still need to apply for a study permit if you are offered provisional admission to the University of Namibia. It is not allowed to enter Namibia on a visitor's visa in the hope of filing an application for a study permit from within Namibia. All applications for study permits should be submitted and issued before entering Namibia.

##### 9.4.3 REGISTRATION OF THE SELECTED CANDIDATES

- (1) Candidates who are registered in programmes involving coursework and a thesis/ dissertation will be required to enroll in recommended faculty **core and elective** (optional) modules, as prescribed in relevant Faculty / Institute brochures.
- (2) Candidates who are to be registered for postgraduate studies by research alone will be required to submit to the relevant Department, an outline of a research proposal, indicating the suggested research topic, stating the research problem to be tackled, the proposed research methods, etc. On the basis of the availability of qualified staff in the department, candidates will be provisionally registered. The final registration of the candidates will be undertaken after the approval by the Postgraduate Studies Committee of their fully fledged research proposal.
- (3) All Postgraduate Students shall be required to register for the compulsory course on "Advanced English for Academic Purposes".
- (4) The Committee will, in consultation with relevant Faculties, recommend to Senate the appointment of supervisors to guide prospective thesis /dissertation candidates.

##### 9.4.4 ENROLMENT IN SPECIAL MODULES

Candidates who are registered for postgraduate study by thesis/dissertation research alone may, if recommended by relevant Faculties and approved by the Postgraduate Studies Committee, be required to enroll in selected modules, which will help to bridge any gaps in their earlier training, or expose them to new developments in their study disciplines.

#### 9.4.5 SANDWICH POSTGRADUATE TRAINING

- (1) Where the staffing strength and the teaching and research equipment for postgraduate training at UNAM can be complemented by co-operation linkage agreements with institutions abroad, sandwich postgraduate training programmes are to be established and jointly run.
- (2) Through sandwich arrangements, candidates will undertake part of their training in suitable institutions abroad, and also benefit from co-supervisors from institutions with which UNAM will establish co-operation linkage agreements.

#### 9.4.6 COURSE WORK EVALUATION AND GRADING

- (1) Candidates who are registered for lectured postgraduate modules will be examined according to procedures approved by Senate.
- (2) In all Faculties / Institutes, the meaning attached to letter grades awarded by examiners is as follows:

<u>Grade</u>	<u>Interpretation</u>	<u>% Equivalence</u>
A	Distinction	80 and above
B	Very Good	70 – 79
C	Good	60 - 69
D	Satisfactory	50 - 59
E	Fail	49 and below

- (3) Before a candidate can proceed to the thesis / dissertation research phase (in the case of the coursework and dissertation students), s/he must first successfully pass the coursework examinations. Successful completion of the coursework phase shall mean attaining at least a D-grade average.
- (4) Supplementary examinations as contained in Regulation 7.21.17 will apply to postgraduate students.

#### 9.4.7 THESIS / DISSERTATION RESEARCH

- (1) Candidates who successfully complete the coursework phase, or who are registered for postgraduate study by thesis/ dissertation research alone, undertake research in an approved research topic, and write a thesis / dissertation. This shall normally be after a specified period set by the relevant Committees and approved by Senate.
- (2) **Thesis** and **Dissertation** research may include an artistic/ aesthetic component, presented in the form of a composition, a theatre / musical performance, and/or an exhibition of original works, as a partial fulfillment of the requirements for a **Master's** or **Doctoral** degree, respectively.
- (3) The candidates shall be assigned supervisors to guide them in their research programmes, and shall write their theses / dissertations in accordance with the guidelines provided by the Postgraduate Studies Committee and approved by Senate.
- (4) As a standard practice, every thesis / dissertation shall be accompanied by a declaration stating that it has not been submitted for a similar degree in any other university.
- (5) The thesis / dissertation must contain an abstract of not more than 300/400 words, respectively, indicating the general findings of the research, and the major conclusions reached. It must also be satisfactory as regards the format and literary presentation.
- (6) Every Master's thesis / Postgraduate Diploma submitted shall be examined by at least two specialists approved by Senate on recommendation by the relevant Postgraduate Studies Committees. At least one of these specialists must be external to UNAM. In the case of doctoral dissertations, at least three examiners shall be appointed, of whom one must be external to the University. The supervisor should not be one of the examiners.
- (7) The examiners shall be required to submit a detailed assessment of the thesis / dissertation, and also write definite recommendations on whether the degree should be awarded to the candidate unconditionally, or whether the degree should be awarded subject to specified corrections/ revisions being made, or whether the thesis / dissertation should be referred back to the candidate for re-writing and re-submission, or whether the thesis/dissertation should be rejected outright. (See Regulation 9.9.1 for more details)
- (8) In cases where the examiners of the thesis / dissertation disagree in their recommendations, the Postgraduate Studies Committee shall study the case and recommend to Senate the appointment of an additional independent examiner to serve as referee on the thesis/ dissertation.
- (9) A postgraduate candidate, who disagrees with the results of the examination as approved by Senate, may appeal, giving reasons and evidence to support the appeal. Senate will then have the case examined by an Appeals Committee.
- (10) Candidates who are registered by thesis research alone (both Master's and Doctoral students) will normally appear for **viva voce** examinations. These will be conducted in accordance with the procedures approved by Senate on recommendation by the Postgraduate Studies Committee. (See Regulation 9.9.3)

#### 9.4.8 REGULATIONS AND GUIDELINES FOR HIGHER DOCTORATES

- (1) Candidates for Higher Doctorates must submit to the relevant Faculty Dean, through the respective Head of Department:
  - (a) a complete Curriculum Vitae, showing their academic, research, and publication experience and records;
  - (b) a unifying statement (in their fields of specialization) of not more than 5000 words, which sums up their contributions to knowledge and scholarship;
  - (c) a sample of reprints (or copies) of their important and original works.
- (2) The candidates must supply the unifying statement and copies of publications in four sets. Published works shall mean what is printed as a book, or papers published in reputed journals, or work already accepted as being equivalent to a publication. Emphasis on published work ensures that the work submitted for assessment has already benefited from criticism and evaluation by peers.

#### 9.4.9 CONFERRMENT OF DEGREES Higher Doctorates

- (1) The final approval on the degree awarded to prospective candidates shall be granted by UNAM Senate on recommendation by the Postgraduate Studies Committee, (after assessing the recommendations by the external examiners).
- (2) The successful Higher Doctorate candidates shall each be required to deliver a public lecture in their respective fields of specialization within a year of the degree award.
- (3) Unsuccessful candidates may not be allowed to re-apply for the same degree within at least three years of the previous application.

#### 9.4.10 SUBSEQUENT PUBLICATION FROM A THESIS / DISSERTATION

Papers or publications extracted from a thesis / dissertation submitted for a postgraduate degree of UNAM must contain a statement acknowledging that the work is based on a thesis / dissertation submitted to the University of Namibia.

#### 9.5 GUIDELINES ON THE WRITING OF THESIS/DISSERTATION RESEARCH PROPOSALS

- (1) The terms "thesis" and "dissertation" carry different connotations in various countries.
- (2) At the University of Namibia, the terms are conceived in the context of common usage in many universities, whereby the term **thesis** is used for a written document presenting the results of research by Master's degree candidates, while a **dissertation** refers to a corresponding document submitted by doctoral candidates.
- (3) The guidelines to supervisors define what is expected of theses and dissertations, respectively.
- (4) Applicants for admission to postgraduate training programmes by research only and by coursework and thesis/dissertation shall be required to write thesis/ dissertation research proposals.

#### 9.6 GUIDELINES ON THE TEACHING AT POSTGRADUATE LEVEL

- (1) To teach and supervise students at the master's and doctoral programme levels, a member of staff shall have a doctoral degree in the discipline of the postgraduate programme being offered.
- (2) Members of staff with lower qualifications but with specialized expertise can co-teach with members of staff holding doctoral degrees.

#### 9.7 GUIDELINES ON THE SUPERVISION OF RESEARCH BY POSTGRADUATE CANDIDATES

##### 9.7.1 INTRODUCTION

- (1) Every postgraduate candidate shall be assigned a supervisor nominated by the relevant Department and approved by Senate on recommendation by the Postgraduate Studies Committee. This shall be both for lectured and independent research courses. Where the student's research topic is multidisciplinary in nature, or where the need for additional expert supervision in the same discipline exists, or where the candidate's postgraduate training programme involves sandwich arrangements, one or more additional supervisors will be appointed.
- (2) Postgraduate student supervisors will be appointed from amongst suitably qualified members of the Faculties / Centres.

##### 9.7.2 GENERAL DUTIES AND RESPONSIBILITIES OF POSTGRADUATE STUDENT SUPERVISORS

- (1) The supervisor should have a thorough understanding of the University's Postgraduate Regulations and Guidelines, in order to effectively guide the candidate towards attaining the stipulated standards.
- (2) A supervisor shall be allowed to supervise postgraduate students only in his/her field of study, expertise and research experience. This will help to ensure high standards of attainment, and to avoid possible embarrassments resulting from the rejection of theses / dissertations by examiners. To supervise Master's and Doctoral level candidates adequately, the supervisor should have a doctoral degree. He / she can co-supervise with members of staff holding a lower qualification but who have specialized expertise.
- (3) The supervisor has the responsibility of knowing his/her students well, and of being familiar with whatever special problems they may have. Where the problems affect the candidate's research progress, s/he shall communicate these to the Postgraduate Studies Committee through the Head of the relevant Department and the Dean of Faculty, in good time.
- (4) Supervisors should know what is expected of them when supervising Master's degree theses and Doctoral dissertation research respectively. Thus they should understand that:
  - (a) The Master's thesis research programme is designed as a **training** course, whereby it is intended that the candidate will:
    - \* be exposed to the fundamentals of research,
    - \* acquire certain new techniques and methods of research,
    - \* learn how to present the results of research in a scholarly manner, and
    - \* make some contribution to knowledge.
  - (b) Because Master's candidates usually lack previous research experience, they require close and careful supervision, especially during the early stage when learning about research methodology, experimental design and research technique, and also when preparing the initial drafts of their theses.
- (5) The doctoral dissertation, unlike the Master's thesis, is recognition of successful postgraduate **research experience**. The supervisor of a Doctoral student should recognize that the candidates, in most cases, will have acquired some research experience when they were Master's degree candidates. What is expected of the Doctoral candidate is thus qualitatively and quantitatively very much more than outlined above for Master's degree candidates. Here the supervisor expects the candidate to:
  - \* make a **distinct and original contribution to knowledge**, of fact and/or theory;
  - \* produce a considerable amount of **original work**;
  - \* undertake a more critical and extensive review of the relevant literature than is the case for Master's candidates, and
  - \* exercise considerably more initiative in conducting the research.

- (6) After completion of a research proposal the doctoral candidate should be able to work **independently**, and to be **guided** rather than directed by his/her supervisor. It will, nevertheless, remain the supervisor's responsibility to guide the candidate in the right direction.
- (7) During the initial phase, the supervisors have the responsibility of assisting their candidates in the design and formulation of appropriate postgraduate research projects. The proposed research topic must be approved by relevant Postgraduate Study Committees, through relevant Faculty Boards before the candidate formally begins to undertake his/her research.
- (8) After one year with the candidate, the supervisor shall provide an evaluation of the candidate's progress, presenting his/her assessment as to whether the candidate has the potential to produce an acceptable doctoral dissertation, or whether he/she should be advised to withdraw.
- (9) The supervisors must be able to look ahead and recognize potential impediments to the research problem in good time. They should be able to determine, through their previous research experience, what can be achieved meaningfully by their postgraduate students, within the time allocated for the study.
- (10) In order to ensure that the thesis/dissertation research proposals benefit from inputs from other academics in the Departments, every Faculty offering postgraduate courses shall, in consultation with the supervisors, arrange research seminar series, which will enable the candidates to stand on their own feet, and to think carefully about why they proposed to use approaches which they intend to adopt in their research etc.
- (11) The supervisors have the responsibility of monitoring the candidate's research progress throughout the research period. There are various methods through which they could be kept up-to-date about the candidate's research progress:
  - (a) requiring the candidate to submit periodic written reports about the research findings (e.g., once every semester);
  - (b) holding regular discussions where modifications to the original research methods should be made, in view of the research findings and on areas which require new emphasis;
  - (c) participation in the research seminar series suggested above, where the candidate could present any breakthroughs s/he may have made in the research, and benefit from other scholars' inputs during the discussions.
- (12) The supervisor ultimately has the responsibility of, in the end, assisting the candidate to give an appropriate title to the thesis/dissertation, and to guide him/her on the presentation of the research results in the form of a scholarly thesis / dissertation, in accordance with the set guidelines.
- (13) Although the writing of the postgraduate thesis/dissertation is entirely the responsibility of the candidate, it is the supervisor's role to ensure that the standards set by the University are adhered to. The supervisor should:
  - (a) be accessible to the candidate during the critical stage of thesis/dissertation writing;
  - (b) discuss the drafts of the thesis / dissertation with the candidate throughout the process;
  - (c) read the candidate's thesis / dissertation carefully and critically, indicating where improvements are needed, e.g., where there is paucity of information, and where the important findings could be published, or should be published, etc.;
  - (d) at the conclusion of the work, read the entire thesis/ dissertation, and advise whether or not it is in a form suitable for presentation to examiners; but
  - (e) should not be responsible for personally editing language usage in the thesis, or correcting typographical errors. He/she should however, point out language errors.
- (14) Towards the end of the research phase, the supervisor also has the responsibility of presenting to the Head of the relevant Department, names and addresses, as well as curriculum vitae, of experts in the candidate's research topic, who could be nominated by relevant Postgraduate Committees as external examiners for the candidate's thesis/ dissertation.
- (15) If the candidate has two or more supervisors, one of these should be appointed Chairperson of the Supervisory Committee. If the main supervisor should be away from the University for more than three consecutive months, an acting supervisor is appointed to guide the candidate in the interim.
- (16) If, in the course of the candidate's research, a situation develops whereby:
  - (a) there is a breakdown in communication between the student and the supervisor;
  - (b) there are personal clashes and conflicts between the two;
  - (c) the candidate refuses to follow the supervisor's advice, both the supervisor and the candidate should report the problem in writing to the Head of the relevant Department, with a copy to the Chairperson of the Faculty Postgraduate Studies Committee for appropriate action. Where necessary a new supervisor could be appointed; the student could be discontinued from studies; the supervisor or the candidate could be warned of any weaknesses.
- (17) Since the supervisor's responsibility is so central and critical in postgraduate student research, and since the task of supervising postgraduate student research is time-consuming, it is decided that:
  - (a) in order to ensure adequate supervision, a single staff member should not normally supervise more than five postgraduate candidates;
  - (b) staff members' supervision responsibilities should be taken into consideration by Heads of Departments when other teaching duties are assigned and when working .

## 9.8 REGULATIONS AND GUIDELINES GOVERNING THE SUBMISSION OF THESES AND DISSERTATIONS

- (1) At least three months prior to the scheduled date for the submission of the thesis/dissertation, the respective postgraduate candidates shall, through their supervisors, Departments, Faculties and Institutes, submit a notice, in writing, to the Chairperson of the Postgraduate Studies Committee, declaring their intention to submit their theses/ dissertations.
- (2) The notice shall be accompanied by an **abstract** of the thesis/dissertation, which shall not exceed 300/400 words, for a Master's thesis or a Doctoral dissertation, respectively. The abstract shall be a synopsis of the methodology of the research undertaken, the findings, and the major conclusions reached.

## 9.9 REGULATIONS AND GUIDELINES ON THE EXAMINATION OF THE SUBMITTED MASTER'S THESES AND DOCTORAL DISSERTATIONS

### 9.9.1 MASTER'S THESES AND DOCTORAL DISSERTATIONS

- (1) Every thesis / dissertation shall be assessed by at least two examiners in the case of Master's candidates and at least three examiners for Doctoral candidates. At least one of the examiners in each case must be external to the University of Namibia. Supervisors should not act as Internal Examiners as they would not critically examine students' work they have supervised. Departments shall utilize appropriately qualified staff from other departments in the University to act as internal examiners when they have within their ranks insufficient staff to draw internal examiners from. Internal and External Examiners should be approved by Senate.
- (2) The examiners shall be required to submit their detailed reports about the theses/dissertations within a period of two months from the date of receipt of the documents. If their assessments are not received within two months, new examiners may be appointed.
- (3) Each examiner shall be required to examine the thesis/ dissertation in detail, and submit his / her assessment under the following headings:
  - (a) **Appropriateness of the thesis/ dissertation title.** The title should be a true reflection of the content of the thesis/ dissertation.
  - (b) **Completeness of the Literature Review.** The literature review should lead the reader to a good understanding of what is already known about the research topic, what gaps of knowledge exist, what the study was intended to contribute, and what hypotheses guided the study. The examiners should comment on the candidate's familiarity with the literature.
  - (c) **Research Methods:** The examiners should also comment on the appropriateness of the research methods (and instruments, where relevant) employed in the study.
  - (d) **Presentation of the Results:** The examiners should comment on the manner in which the findings of the study are presented. If tables of data are provided, are they reduced statistically? Are the statistical analyses appropriate? If illustrations are provided, are they of publishable quality? Is the description of the research results of adequate clarity and scholarship?
  - (e) **Discussions and Conclusions:** Are the conclusions clearly presented? Are they logical and supported by data? Has the candidate sufficiently indicated how his/her results compare with those of others, as cited in the literature? From the thesis/dissertation, is his/her contribution to new knowledge clearly brought out? In the case of Doctoral dissertations, is there evidence of sufficient originality? If there are weaknesses in the thesis/ dissertation, what are the shortcomings?
  - (f) **Summary:** The examiner should present a summary indicating whether s/he recommends the thesis/ dissertation for a postgraduate degree award, by completing the Summary Form (attached as Annex 4).
  - (g) The External Examiners should address their comprehensive written and typed reports to the Vice-Chancellor.
- (4)
  - (a) Where a Master's thesis is recommended for re-writing, it must be re-submitted within 6 months.
  - (b) Where a Doctoral dissertation is recommended for re-writing, it must be re-submitted within 12 months.

### 9.9.2 ASSESSMENT OF PUBLISHED WORKS FOR HIGHER DOCTORATES

- (1) The work submitted to UNAM for a Higher Doctorate candidate shall be evaluated by at least three examiners appointed by Senate on recommendation of the relevant Faculty Board and Postgraduate Studies Committee.
- (2) The job of examiners shall be to critically examine the candidate's contribution, to ascertain that:
  - (a) the work shows outstanding originality;
  - (b) the candidate's contribution to new knowledge has been substantial;
  - (c) the quality of the candidate's **unifying statement** is truly excellent.
- (3) Examiners for Higher Doctorates shall be selected from amongst the most highly distinguished international scholars on the subject, preferably holders of Higher Doctorates themselves.
- (4) The examiners shall be required to report on the candidate's works, recommending in definite terms, whether or not the Higher Doctorate should be awarded.
- (5) For a candidate to merit a higher doctorate award, the examiners must unanimously approve the award. In case of disagreement among the examiners, similar guidelines to those applicable to Master's and Doctoral candidates shall be followed.

### 9.9.3 VIVA VOCE EXAMINATIONS

- (1) In addition to writing a thesis / dissertation, the postgraduate candidates who are registered as per provisions under Regulation 9.4.3 (2), shall appear for a viva voce examination, to defend the submitted work before a panel of specialists on the subject.
- (2) The **viva voce** examination shall take place only after the Postgraduate Studies Committee and the Senate are satisfied that the thesis / dissertation submitted by the candidate is considered by the examiners to be of an acceptable standard.
- (3) The questions to be asked in the **viva voce** examination shall primarily be focused on the candidate's thesis/dissertation research area.
- (4) The members of the **viva voce** panel shall be so selected as to ensure that the candidate is examined by scholars who are sufficiently qualified and experienced in the research field.
- (5) The Examiners and the Supervisor(s) of the thesis / dissertation shall be members of the **viva voce** panel. The public may attend but are not permitted to ask questions.
- (6) The Chairperson of the **viva voce** panel shall be a senior academic and shall be appointed by Senate on recommendation of relevant academic Boards.
- (7) The **viva voce** panelists shall be provided with full texts of the theses / dissertations, and also of the examiners' reports, at least two weeks before the date scheduled for the oral examination.
- (8) The function of the **viva voce** panel shall be:

- (a) to ascertain that:
    - \* the thesis / dissertation presented (the data, methodology, analysis and findings) is the original work of the candidate;
    - \* the broader subject area in which the study is based is fully grasped by the candidate, and
    - \* any weaknesses in the thesis/dissertation can be adequately clarified by the candidate, and

## ANNEX 1

### GUIDELINES ON THE WRITING OF RESEARCH PROPOSALS

#### Preamble

These guidelines have been developed for prospective postgraduate candidates, who are about to enter into the research phase of their studies, in an attempt to ensure that they embark on their research with a clear focus, and in the right direction. In preparing their research proposals, both for Master's and Doctoral work, prospective candidates should consult with Heads of relevant Departments, who will refer them to lecturers and Professors with relevant experience and expertise. Moreover, prospective candidates should work closely with their supervisors when preparing their research proposals

#### Tentative Title

The title of the thesis/dissertation research proposals should be clear and concise. From the title, one should be able to infer clearly the subject of the thesis/dissertation. This means that the title should be self-explanatory and limited to the scope of the study.

1. Title of the proposed study (refer to Annex 6 for the format of the title page)
2. Introduction
  - 2.1 Orientation of the proposed study  
In a general overview and using key literature pieces, students should state research concerns, disagreements, controversies, unanswered questions and gaps in knowledge that give rise to research problems of their interest.
  - 2.2 Statement of the problem  
Students should concisely formulate their research problems by clearly indicating research issues they would like to investigate in their studies. This should include the purposes of their studies
  - 2.3 Objectives of the study and/or research questions  
Based on the statement of the problem, students should state either objectives or research questions of their studies. They should do this unambiguously.
  - 2.4 Hypotheses of the study (where needed)  
Where applicable, particularly in the Natural Sciences, students should state unequivocal and testable hypotheses that are based on theory and on the statement of the problem. Each hypothesis should have a clear rationale.
  - 2.5 Significance of the study  
Students should state the importance of their studies, the anticipated contribution of such studies to knowledge and to socio-economic progress.
  - 2.6 Limitation of the study  
Students should indicate the scope, logistical and resource limitations of their studies.
3. Literature Review and (where applicable) the theoretical framework  
In this section students should prepare critical, synthesized and integrated literature reviews that should demonstrate the need and justification of their studies. The reviews should show gaps in knowledge, theoretical and methodological shortcomings, need for further research, unanswered questions, disagreements in literature and theoretical frameworks that may need to be revised to resolve controversies. In addition, the reviews should demonstrate what has been done in research areas of interest and what remains uninvestigated.
4. Methodology
  - 4.1 Research Design  
Students should provide clear statements on either quantitative or qualitative research designs they intend to use. They should specify how they intend to use particular research designs in their studies. They should not merely provide the distinction between the two generic designs
  - 4.2 Population (where applicable)  
Students should, where applicable, specify the population to which they would like to generalize their research findings.
  - 4.3 Sample  
Students should clearly explain how they intend to draw samples from the target populations. They should specify how they intend to appropriately use either quantitative or qualitative sampling techniques to draw research samples. Merely describing what these sampling techniques are is inadequate.
  - 4.4 Research Instruments  
Research instruments and measures that would be used to collect data should be clearly provided under this section.
  - 4.5 Procedure  
The manner in which data would be collected should be given here. How research instruments would be used to collect data should be specified in this section.
  - 4.6 Data analysis  
Students should in this section provide specific strategies that they would employ to analyze their data. Mere reference to particular quantitative data analysis statistical packages and electronic qualitative data analysis procedures would not be sufficient.
  - 4.7 Budget (for sponsored students only)  
This section is optional to unsponsored students
5. Research Ethics  
Students should provide information on *how* they would observe research ethics when conducting their studies. Merely stating what research ethics are would not be sufficient.
6. References  
Students should use the **Publication Manual of the American Psychological Association (APA)** format when citing sources of information in text and when preparing reference lists at the end of their research proposals. There must be consistency between sources cited in the text of the proposal and sources of information indicated in reference lists.
7. Postgraduate students **should not use the Wikipedia** as a valid academic source of information as the information presented in it is not verifiable.

### **Length of research proposals submitted for consideration by the postgraduate studies committee**

1. The length of abridged versions of student research proposals for submission to the Postgraduate Studies Committee shall be as follows:
  - 1.1 Research Proposals from students at the Master's Degree level shall not exceed 12 double-spaced typed pages in length.
  - 1.2 Research proposals from students at the doctoral degree level shall not exceed 14 double-spaced typed pages in length.
  - 1.3 In each case, research proposal summaries shall not exceed 2 double-spaced typed pages in length.

### **The limit of the number of times postgraduate student research proposals can be considered by the postgraduate studies committee**

1. Postgraduate Students shall be allowed to re-submit their revised research proposals to the Postgraduate Studies Committee for up to the maximum of only **3 times**.
2. Faculties shall deregister postgraduate students who fail to make progress after the three re-submissions of their research proposals or after the permitted duration of their studies.

Postgraduate students **should not use** the **Wikipedia** as a valid academic source of information as the information presented in it is not verifiable.

### **Duration**

The applicant should state whether he/she will undertake the proposed research on full time or on a part-time basis, and whether fieldwork is involved. He/she should also present a time table showing the sequence of his/her research activities and the planned date of completing the degree programme.

### **Referees**

The Postgraduate Studies Committee may wish to require scholars who know the applicant well to comment on his/her ability to undertake the proposed research. It is important, therefore, that the applicant includes names (and full addresses) of two or three possible referees who could give an assessment of the applicant's abilities.

### **Outline of Research Proposal summaries**

The candidates are required to submit to the Senate 2 – 3 page summaries of their research proposals. These should include the title of the research proposal using information contained in annex 6, a statement of the problem and its significance, a brief summation of the foci of the literature in the area of study and the methodology to be used in the study (indication a clear statement of data analyzing).

A disabled candidate (e.g. blindness, physical handicap) shall be accommodated after the necessary arrangements have been made beforehand and with the approval of Senate.

### **10.2 EXAMINATION ADMISSION**

A student who is registered for a degree, diploma or certificate course of study, has paid the prescribed fees and obtained a minimum examination admission mark of 40 %, shall be admitted to the examination unless Senate determine otherwise. All relevant students shall be furnished with departmental stipulations for the obtaining of the examination admission mark in writing (at the commencement of the academic year).

#### **Determination of examination admission mark**

The examination admission mark is determined by continuous evaluation of a student's achievement via assignments and/or practicals/seminars/tutorials, and tests during vacation schools, etc.

### **10.3 EXAMINING**

On completion of (a) prescribed syllabus (syllabi), unless otherwise determined, examinations shall be conducted in all modules. Unless expressly otherwise determined, the examination in a module shall consist of a written examination.

#### **Examiners and moderators**

Senate through the Board of Studies shall, on recommendation of the Faculty Boards, appoint examiners (first and second moderators).

- (ii) Except in exceptional circumstances such as in the case of death, resignation, absence, illness or other inability of the lecturer concerned, at least one examiner shall be a lecturer who has been involved in the internal teaching of the particular module.

### **10.4 DETERMINATION OF EXAMINATION ADMISSION, EXAMINATION AND FINAL MARKS**

#### **Determination of examination admission marks**

The various departments shall calculate examination admission marks before the particular examinations commence and these shall be made known to students on the dates as determined by Senate and indicated in the calendar.

#### **Determination of examination marks**

- (i) Unless otherwise stated in the respective regulations, the examination mark shall comprise the average mark of the marks obtained for each paper in a module.
- (ii) If the marks of the first and second/external examiner differ by less than 10 %, the average mark shall be taken as examination mark for that paper.
- (iii) If the marks of the first and second/external examiner differ by more than 10 %, an arbiter examiner shall be appointed. The decision by the Examinations and Promotion Committee of the Centre shall be final.

#### **Determination of final mark**

- (i) In determining the final mark, the year mark and the examination mark shall be considered. Unless determined otherwise, the weight ratio between year mark and examination mark shall be 50:50, or as determined from time to time by Senate on request of Faculties.
- (ii) The final decision regarding examination results shall rest with Senate. Results shall be announced to students.

#### **Promotion**
